# Use Models and Strategies to Add Tens and Ones

**Essential Question:** What are ways to use tens and ones to add?

## Digital Resources

Everyone can see some stars from where they live.

The stars you see one night might be different than the stars you see another night.

Wow!  
Let's do this project and learn more.

## Math and Science Project: Watch the Stars

**Find Out** Talk to friends and relatives about stars. Discuss why the stars you see in the sky change from night to night.

**Journal: Make a Book** Show what you found out. In your book, also:

- Draw the stars you can see from where you live.
- Make up and solve addition problems about the stars.
