

**A-Z Vocabulary**

1. To **solve** a problem, you can use drawings and an **equation**.

Ming has 27 animal pictures and 14 plant pictures.  
How many pictures does Ming have in all?

Draw a picture to add.

Make a 10 if you can.

Write an equation.

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Ming has \_\_\_\_\_ pictures in all.

2. Use drawings and write an equation to solve.

Sara has 36 marbles. Her  
sister gives her 17 more  
marbles. How many  
marbles does Sara  
have now?

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Sara has \_\_\_\_\_ marbles.
